

MOHReg 56/2001/1

Uses For Micro-organism cultivation on solid nutrient media.

Main Features

- Glass-clear, scratch resistant material.
- Highly resistant to aqueous solutions and temperature changes.
- Designed to allow ventilation and to protect the culture media,
- Dimension 87mm (OD), 15mm (HT).
- Available with single, double or triple compartments.
- Supplied either sterile or non sterile.

Packing

- Standard pack comes with 10 petri dishes in one poly bag.
- Any no. of petri dishes per pack can be supplied if requested.
